
INFORMATION BULLETIN No. 58

Lottery Retailers and Break Open Ticket Sellers

Beginning January 24, 2008, lottery retailers registered to sell Ontario Lottery and Gaming Corporation (OLG) products were also permitted to sell break open tickets without obtaining a separate registration under Regulation 68/94 made under the *Gaming Control Act, 1992*.

The Alcohol and Gaming Commission of Ontario (AGCO) is pleased to advise that registered lottery retailers wishing to sell both OLG products and break open tickets will now be issued only **one** certificate of registration for each location.

If you are currently a lottery retailer who wishes to start selling break open tickets, you must notify the AGCO prior to commencing sales. The AGCO will update its records and you will receive notification that you may proceed.

When renewing their registration, lottery retailers who currently sell both types of products and wish to continue to do so will complete the application (Form 6179), and should check off the box marked "Break Open Ticket Seller and Lottery Retailer" in Section 2. After the application has been approved, the AGCO will issue a Lottery Retailer certificate, under which break open tickets can be sold.

New applicants wishing to sell both OLG products and break open tickets will complete the application (Form 6179), and should check off the box marked "Break Open Ticket Seller and Lottery Retailer" in Section 2. After the application has been approved, the AGCO will issue a Lottery Retailer certificate, under which break open tickets can be sold.

As required by the OLG Lottery Retailer Policy Manual, the Certificate of Registration as a Lottery Retailer or a photocopy must be posted at the retail location or placed in the front of your Lottery Retailer Binder kept at the retail location, and must be available upon request to an AGCO Inspector.

If you have any questions or require further clarification, please contact AGCO Customer Service at 416-326-8700 or our toll-free line at 1-800-522-2876.
